

These units are easily modified to be used as lifts for cameras and antennas. Command Light can also build special products to meet your specific needs.

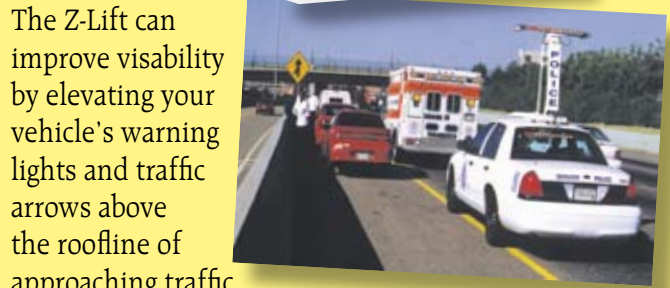

0-90° & 45° Right or Left

Light Bar not included

Low Profile when bedded

The Z-Lift can improve visibility by elevating your vehicle's warning lights and traffic arrows above the roofline of approaching traffic.

Ruggedly constructed of aluminum and stainless steel alloys, Z-Lift is an investment in safety that will provide many years of service. A flexible mounting system provides the freedom to select light bars that conform to department requirements. The 180 degree rotation feature allows the warning lights and traffic arrows to be positioned for maximum effectiveness regardless of vehicle placement.

MODEL No.	DESCRIPTION*	POWER REQUIREMENTS
SL322	2 X 150 Watts, MH**	24AMPS, 12VDC
