### DC LED CHART DISCLAIMERS

- \* Weights listed with no options.
- \*\* Reported run times based on fully charged batteries at 70° F; temperature and battery condition can impact tripod performance. Light blinks three times to warn of low-battery conditions.
- \*\*\* T50D-LB-BX run times based on floodlight pattern. Multiply minutes by 2 for average arrow patterns.

**FINALLY,  
A TRIPOD  
DESIGNED  
FOR THE  
INDUSTRY.**

Command Light continues to elevate scene lighting, this time revolutionizing the tripod lighting market with the introduction of the all-NEW Trident Tripod, the only tripod of its kind that lets departments choose their power source, plus their favorite firefighter LED. Pair AC Power, Truck 12V DC or one of four different non-proprietary battery options with Akron Revels, FRC Spectras, FireTech Helios, Whelen PioneerPlus or a Fenix Arrow Stick.
